## *Let Us Help You Complete Your Application Before the Filing Deadline*

Please take a few minutes and bring in your application so we can give you one-on-one help.

**The SBA disaster loan application filing deadline date for this disaster is July 3, 2006.**

### **Do Not Wait to File Your Disaster Loan Application**

- ☐ If you are waiting for a settlement from your insurance company, or if you have an insurance dispute, please do not wait to file your SBA disaster loan application. SBA can process your application now. When you receive your insurance settlement, we will adjust the loan amount, if necessary.
- ☐ If you are waiting for a contractor's estimate, please do not wait to file your SBA disaster loan application. SBA will inspect your damaged property and estimate the amount needed to make repairs or replace your property.
- ☐ Even if you have been denied other assistance, you may still be eligible for assistance from SBA.
- ☐ If you believe you cannot afford a loan, you should submit your low-interest loan application to SBA. If you are a homeowner or a renter and SBA determines you cannot repay a loan, we may be able to refer you to other programs for assistance. You must submit your SBA application in order to be referred any other program.
